

Apreciado cliente,
En 1979, BBS dio sus primeros pasos iniciando un recorrido que, con los años, se demostró brillante y en constante ascenso.

Al principio, se trataba de un sueño surgido de una idea muy precisa: ofrecer al mercado un producto de calidad, respaldado por un servicio al cliente de alto nivel.

Puedo decir, citando una famosa película, que en aquel momento se trataba de un sueño que sólo se podía murmurar, ya que cualquier palabra más alta que un susurro podía hacer que se desvaneciera.

Actualmente, pasados treinta años, aquel sueño se ha convertido en una realidad concreta y sólida, capaz de atravesar indemne períodos de crisis y de mirar al futuro con ambición: como un árbol robusto que tiende sus frondosas ramas hacia el cielo. Un árbol que, al mismo tiempo, conserva en las profundidades la esencia de aquella frágil semilla que fue el origen de todo.

Aquí me hallo, treinta años después, repitiendo a todos los trabajadores de BBS que el cliente es nuestro verdadero valor y que ofrecerle el mejor servicio, teniendo en cuenta sus necesidades y sus exigencias, es nuestra misión cotidiana.

Día a día, trabajamos de forma incansable para mejorar nuestros productos y nuestros procesos, controlando siempre el impacto medioambiental y social de nuestra actividad, contribuyendo así a proteger nuestro entorno.

Inspirados por este sentimiento, miramos al futuro con fe e inspiración, para establecer con nuestros clientes un vínculo de colaboración estable y duradero.

Por ello, le invitamos a que también elija BBS, porque BBS hace de su negocio una fiesta.

Giorgio Sangiorgi

*Dear Partner,
It was the year 1979 when BBS took its first steps along a path that would, over the years, prove to be brilliant and in constant ascent.*

In the beginning there was a dream, originating from a precise idea: to offer high quality products, supported by an excellent level of Customer service, to the market. I can now say, quoting the words of a famous film, that at the time we could only whisper this dream, as any word spoken louder than a whisper might have made it fade away.

Today, thirty years down the road, I can say that the dream has become a tangible and solid reality, carrying on unharmed through crises, looking towards the future with ambition: like a hardy tree that pushes its leafy branches towards the sky. A tree that, at the same time, preserves in its roots the essence of the fragile seed from which all this originated.

Here I am, thirty years later, still repeating to every person working in BBS that our Customers are our real value, and that our daily mission is: to serve them in the best way possible, always bearing in mind their needs and their requirements.

Every day we work constantly to improve our products and our processes, carefully monitoring the environmental and social impact of our business, making our own contribution to the protection of the environment.

Driven by this spirit, we look towards our future with confidence and inspiration, our aim being to create a stable and long-lasting cooperation with all our Customers.

So why don't you choose BBS... because BBS makes your business a party!
